

REFERENCE SHEET FOR DISCHARGE DISPOSITION CODES FOR INPATIENT DISCHARGES

(Revised September 2005 by Sue Malone and Sarah Branish)

(Note: See NUBC UB-92 Manual for official full code descriptions and definitions. This reference sheet is intended as a shortened reference only, does not always include all actual NUBC language and is not an authoritative source of advice. All references to effects on pay to hospitals are for Medicare patients only.)

- 01 Home or self care. No effect on pay to the discharging hospital. Includes home on oxygen if DME only, any other DME only, foster care, jail, partial hospitalization, residential care, group homes, and is a general default if no other code category fits.
- 02 A short-term general hospital for inpatient care. Reduces pay to discharging hospital for almost all DRGs.
- 03 SNF with Medicare and Medicaid certification in anticipation of covered skilled care. Reduces pay to hospital for selected DRGs. (See also 04, 61 and 64)
- 04 Intermediate Care Facility (ICF). No effect on pay to hospital. ICF's are state designated and licensed facilities that care for the developmentally disabled:
- Grand Junction Regional Center – Grand Junction (operated by Colorado Dept of Human Services)
 - Kipling Village/Wheat Ridge Regional Center – WheatRidge (operated by Colorado Dept of Human Services)
 - Good Shepherd Lutheran Home of the West – Littleton (private, non-profit organization operates 4 houses in Littleton: Delaware House, Caley House, Sherman House, and Wellington House)
- 04 is also used for stated designated assisted living facilities (ALF) without SNF or home care. If SNF services are provided within the ALF, use the SNF rules for 03, 04 and 64. If home care services are provided within the ALF, use 06.
- 04 is also used to designate patients that are discharged/transferred to a nursing facility with neither Medicare nor Medicaid certification. See CHA "Facility Guide to Patient Status Codes for Nursing Homes."
- 05 To another type of institution not defined elsewhere in this code list, such as non-Medicare PPS children's hospitals or non-Medicare PPS cancer hospitals (effective 2/23/05). This definition has been changed yet again as of 2/23/05, and is even less clear than it used to be.
- Reduces pay to hospitals for selected DRGs. **INCLUDES** children's hospitals, cancer hospitals, hospitals within hospitals. **EXCLUDES** federal hospitals (43), inpatient rehab (62), long-term care hospitals (63), SNFs (03, 04, 61, 64), and psychiatric hospitals.
- 06 Home health service organization in anticipation of covered skilled care. Reduces pay to hospital for selected DRGs. Must (1) be specified in written plan of care, (2) relate to the inpatient stay, and (3) commence within three days of discharge from inpatient stay. If DME only, code 01. If not related to inpatient stay, append condition code 42. If not commenced within 3 days of discharge, append condition code 43.
- 07 Left Against Medical Advice or Discontinued Care. No effect on pay to discharging hospital. (But if the patient is admitted to another hospital on the same day the patient leaves AMA, CMS will retroactively change the discharge disposition to 02 and potentially reduce pay to hospitals for selected DRGs.)
- 08 Home IV. No effect on pay to the discharging hospital. This code is DISCONTINUED effective 10/1/05.
- 20 Expired. Used for inpatient claims. No effect on pay to discharging hospital.
- 30 Still a patient. Used for leave of absences, interim bills.
- 40 - 42 Expired at home, in a medical facility, at a place unknown. For Medicare and Champus, these are only used to bill for hospice claims, never inpatient claims.

43 Federal health care facility. (effective 10/1/03). VA and Department of Defense Hospitals, VA nursing homes. If the patient lives at the VA, still use 43 and not 01. No effect on pay to the discharging hospital. Changed in May 2004 to specifically **include** VA nursing homes. The definition "Federal hospital" was changed to "Federal health care facility."

VA Hospital, Denver	US Air Force Academy Hospital, Colorado Springs
VA Hospital, Grand Junction	US Army Hospital at Fort Carson
VA Hospital, Ft. Lyon	VA Nursing Homes

50 Hospice care; patient to live at home. No effect on pay to the discharging hospital.

51 Hospice care; patient to live at the hospice facility. No effect on pay to the discharging hospital.

61 Discharged/transferred to a hospital-based Medicare-approved swing bed, at this or another institution. No effect on pay to the discharging hospital.

62 **Inpatient** rehab facility (IRF), either this hospital's or another hospital's, including rehab distinct part units. (Effective retroactive to 1/1/02) Reduces pay to hospitals for selected DRGs.

Parkview Medical Center
Colorado Mental Health Institute at Pueblo

66 Critical Access Hospital (CAH), effective 1/1/06. No effect on pay to the discharging hospital.

CAHs are limited service hospitals located in rural areas. They provide 24-hour emergency care services, have an average length of stay of 96 hours or less and are located more than 35 miles from a hospital or another CAH or more than 15 miles in areas with mountainous terrain or only secondary roads OR are certified by the state as being a "necessary provider" of healthcare services to residents in the area. CAH's are excluded from inpatient and outpatient prospective payment systems and are paid on a cost-plus basis. CAHs in Colorado include:

Conejos County Hospital, La Jara	Mt. San Rafael Hospital, Trinidad
East Morgan County Hospital, Brush	Rangely District Hospital, Rangely
Estes Park Medical Center, Estes Park	Rio Grande Hospital, Del Norte
Family Health West Hospital, Fruita	Sedgwick County Memorial Hospital, Julesburg
